What's up guys,

I really enjoyed spending the time with yall? I hope pa can hold on until the next time I make it home. I hope you guys have had a good Christmas and new year besides the circumstances. Ma if you would Tell pa that I love him so much. With him passing away it leaves me and all the other granddads without a great role model and loving grandfather. I have enjoyed every minute that I have spent with pa. He is a great man and always will be even after he is gone. Many people look at death as a time of sorrow and the time of the end. I have the same feelings some times but I also feel that death is a time of celebration. Because when you get closer to death it is harder to cope in the real world. We all know that when pa leaves us he is going to a better and painless place. Where he can watch over us and wait for us to join him. I love pa so much, and it is so hard to express myself some times, but we all need to hang on there and give pa all the reassurance that we are going to be fine after he leaves. seeing loved one hurting is sometimes reasons for people to hang on. Pa is a great father, grandfather, brother, husband, and friend. there is no reason why we would not want to hang on to him a long as we can. Ma I love seeing you guys and I will be back to Greensboro to see ya before you know it so tell pa to get his reat and eat as much as he can and use the love we give him to wash away the pain.

LOVE YA ALWAYS,

NATHAN TAYLOR
